

Secondary School Health Team Newsletter

Term 3 January 2021

This newsletter aims to provide families and young people with some useful tips for keeping healthy. Childhood is an important time to instil healthy habits and learn crucial life skills. Establishing these habits early on will help to improve your child's quality of life in the future and enable them to reach their full potential educationally.

Dear all,

As we entered our second period of school closures last week, we want to reassure you that the School Nursing Service are still here, ready to help and support you, and your children. Although many children are not able to attend school the school nurses are able to make contact by phone, text, email or digital consultation. We can also meet as necessary face to face with young people as we are wearing personal protective equipment, to help protect us both. These are trying times and it is important to remember this won't last forever and we all need to adhere to all the government guidance, hands, face, space and staying at home. The roll out of the vaccine will take some time, and we can all play our part in keeping each other safe until this disease is under control. Please do open the links in this newsletter as there are many ideas and resources out there to help us all get through.

Take care and stay safe – Secondary School Health Nursing Team

Health advice for Oxfordshire parents/carers with children aged 5-19 during Lock Down

Worried about your child?

Advice available from the school health nurse team

Oxfordshire School Health Nursing Service can provide you with telephone support or a digital consultation

Email SHN.oxfordshire@oxfordhealth.nhs.uk with **HOLD** in subject line

Include: Child's name, their date of birth, school, your name and mobile contact details & a brief outline of your concerns

We will endeavour to reply within 2 working days

If your child is unwell, please contact their GP or dial 111

Immunisations - Government guidance is that Immunisation programmes need to continue.

The Immunisation team working closely with the School Health Nurses, are delivering HPV vaccines to young people in years 8 & 9. Sessions where possible, are still happening in schools, and your school will contact you with details of when to bring your child into school for these important vaccinations.

If required, an alternative venue or date will be arranged in order to offer these vaccinations at the earliest opportunity. Parents will be advised of any changes via school.

Any queries please email ImmunisationTeam@oxfordhealth.nhs.uk

Community call to action!

The Oxford Vaccine Group is surveying how well protected we are from infectious diseases, including **COVID-19** from a cross section of society. In particular we know that Black, Asian and minority ethnic individuals are at greater risk of becoming sick with COVID-19 than the white population in the UK. We need to understand why.

For information please visit <https://whatsthestory.web.ox.ac.uk> or contact us by telephone on 01865 611400 or email on info@ovg.ox.ac.uk Taking part in this research study is completely **voluntary**.
