

WYKHAM WEEKLY—ISSUE 4:

1st November 2021

Editorial—Mr Bent

Welcome to the first issue of Term 2—all articles were written before half term, though. I hope you have all had a lovely and relaxing half term—I spent five days in Norwich, which is where I went to university; meeting up with friends I hadn't seen for a few years, and also seeing Dippy the Diplodocus in Norwich Cathedral! I am also looking forward to Term 2—the run up to Christmas is always hard work, but then at the end of the term you get to enjoy your Christmas dinner.

We welcomed some new Year 7s to the Wykhams Weekly team, with Christian Tomsett and Cayden Whittingham joining Michelle, Daisy and Chloe.

Plea:

Ms Smith would appreciate it if you had any spare newspapers or magazines that you could drop off at the art rooms.

Message from Mrs Willcocks:

Just a quick note to say Myself and Ms Joubert are incredibly grateful for the kind donations of enclosures for the BTEC animal care group. It is a fantastic school community we have here at Wykhams Park and we'll update you with how the BTEC group uses them to complete their next assignment.

Events on Campus:

Bugsy Malone Rehearsals

After school on a Wednesday and a Friday we have Bugsy rehearsals in D1. There are still many roles to take part in, or you can come and help backstage. It's after school until between 16.30 or 17.00, but sometimes it finishes earlier!

Michelle

Manga Club

A new club has been announced, this time being hosted on a Wednesday in the Library. In this club, students have the opportunity to show their drawing skills, most specifically anime. They can play games, make friends and discover new passions and create new drawings.

Movie Night

As Halloween approaches, there was a Halloween movie night at the school on Thursday 21st October. Popcorn and drinks were available at this film night and they were watching Halloween themed movies to get in the Halloween spirit of 2021. We at the newspaper club hope you all have a wonderful half term and happy Halloween as this will be the last article before this spooky time of year.

Daisy

Sports council list released!

Last week, students voted for their college's sports council representative. There would be one per college per year and they will represent their college in termly meetings.

END OF TERM!

The end of term means students (and teachers) have survived half a term. They will now get a week off from school. Congratulations to all who survived! The new term starts on Monday, 1st November 2021.

Chloe

Book Reviews:

Issue 3's books in the review for this week are....

Orion Lost by Alastair Chisholm

Head Kid by David Baddiel

Daisy

Film Reviews:

Another film review for this week's article! This time the film review is about the recent film on Disney+ called 'Raya and the last dragon'. This is a film about the extinction of dragons, and when a girl called Raya goes on a journey, she finds a dragon called Sisu. And no more spoilers for now. However, I highly recommend watching this film as it is very entertaining and has a tense and amazing storyline as well as unique characters.

Daisy

Name of movie: Paddington

Paddington is a nice family movie to watch at home. I recommend watching it at home. You can watch it on Disney + or get a DVD!

Michelle

Rugby:

Every time we do practice for the rugby club team we don't have any new player. Can we please have YOU on the team. If we have YOU we could have enough players to be able to substitute. Without new players Wykham Park are being roughened up each time we play in proper matches so please join the Wykham Rugby Team. So Year 7 can you please go to Art, but before going up to the art section look for an open or closed white door—you shouldn't miss it is out of the one way system of Maths and History and I.T. corridor.

No bullying in school:

Look bullying is wrong and hurtful and we all get that don't we. So we need to end it and I know someone from my primary who bullied but he is a changed man and people bully because they themselves are hurt at home or school and making people hurt makes them feel a lot better about themselves but in the end they are no different than themselves so stop bullying and talk to whoever is causing you harm.

How to make friends quickly:

To make friends quickly is

- .Listen to what they say
- .Agree with them even if you don't agree with them
- .And be yourself

If you follow this then you could make friends a lot quicker.

Christian

Cayden Reviews—Subnautica:

Subnautica is a cool fun game about exploration and survival. It is also known as a horror for some of the creatures in the game. E.g. the reaper leviathan.

They spawn by the Aurora. The Aurora could explode from its nuclear core. You need to escape the planet (4546b) with the Neptune escape rocket.

My personal favourite fish are the cuddlefish and the hover fish

There are multiple vehicles in the series but I'm only going to talk about the first game (Subnautica). The vehicles are the seamoth, a small, quick, and nimble submarine that is great for adventures. The next vehicle is the prawn suit, a mobility suit to mine and defend against predators. The final and biggest vehicle is Subnautica, the Cyclops, a large spacious vehicle that is meant to be piloted by a 3 person crew but I know you'll be able to do it alone. You can also dock either the seamoth or the prawn suit in the docking station. If you would like to build a base you would need a habitat builder. With that you can build the multipurpose room or the moonpool. Inside the moonpool you can add a vehicle upgrade console where you can add upgrades and change the colour of the vehicles. You can also change the vehicle's name. To change the Cyclops' colour and name you need to go inside the Cyclops. To get better upgrades you need the modification station. There are multiple tools as well. Like the Seaglide, the knife and the scanner.

Overall I rate this game a 9.5/10.

Cayden Whittingham
