

WYKHAM WEEKLY—ISSUE 6:

8th November 2021

Editorial—Mr Bent

Issue 6 is here this week. We're looking forward to Children In Need on Friday, where different mentors will be running different activities, all raising money for charity. I'll be running a pub quiz—in teams, 50p per person to join. I'll provide a giant bar of chocolate as a prize. Ask the mentors in your college to see what they're planning as well.

This week we also welcome Milka Ivanova and Liya Mahmood to the writing team.

Club news:

A new club has started. ART CLUB. Art club is a club where you go and improve in something that you want or you can try something new that is a new style of art that you don't normally try! Also there will be two teachers there to help you—Miss Cumming and Miss Smith.

Milka

BOOK CLUB

Book club is a fun club to read books! Year 7 and 8 on Monday 3:05-4:15. Higher year groups Thursdays 3:05-4:15! You get to read a different book each week and have fun reading with others. Come if your interested and it will be in the library!

Michelle

TEAM SEAS

Team Seas is a scheme by YouTubers Mr. Beast and Mark Rober. This campaign follows another campaign called Team trees. Every dollar donated means that they will aim to take another pound of trash out of the ocean. YouTube originals matched the first \$400,000 in donations. The Bikoff Foundation also matched any donations on October 30th, 2021 up to \$1,000,000. The largest donation made so far was by Spotify CEO Tobi Lütke with a total of \$1,200,001, during team trees, Tob donated \$1,000,001. Half the money donated would go towards funding beach clean-ups across the globe. The other half of the money donated would go towards 'trash collecting robots'. These robots will go in rivers connected to the ocean and collect any rubbish that is going into the ocean.

Bonfire night!

Bonfire night is where a lot of people set up fireworks. There were lots of fireworks in London, Bodicote and other places!

Bonfire night lights a spark in the skies nearby with many different firework displays being held closely. The skies were beautiful that night and for surrounding days however it was clear that the pets don't enjoy this yearly date.

Michelle and Daisy

Remembrance Day

On Thursday 11th November, it is Remembrance Day! On this day we remember those who died during World War I. We do this with a minute of silence for them at 11:00. If you would like to, you can wear a poppy around this time.

Daisy

Movie Review:

Movie name: Coco

It was made in 19th January 2018

As a person who's seen this movie before, it's a pretty good movie to watch and it's quite interesting! You are able to watch it on Disney plus. It's 1 hour and 45 minutes long.

Michelle

Book Review

This week I will be doing a complete review of the mystery book series by Enid Blyton as I have read a collection of these books. This series is about a group of children called the five find outers who solve a different mystery based in their area each book. I would highly recommend this series as it is very tense, unique and overall entertaining, with a few aspects of humour as well!

Daisy

Book review

The Hobbit—The Hobbit is a story by J.R.R. Tolkien set in the mythical world of Middle Earth and following the journey of Bilbo Baggins (a hobbit) and his dwarven companions to reclaim the ancient kingdom of Erebor.

Along the way, Bilbo evolves from a reluctant traveller to a brave, slightly less reluctant hero as he battles trolls, giant spiders and, ultimately, steals from the lair of the mightiest of dragons; Smaug the golden...

I would recommend this book to anyone over the age of eight although the wording is quite complex, and anyone who would like to read The Lord of the Rings

(I will review this next week). It is a funny, adventure-filled introduction to the world of Middle Earth. This book is available to borrow from the library and has also been adapted into a film.

Eleanor

Cayden Reviews—Minecraft:

This is one of my favourite games so this will be easy to write about. Ok so you start off by making a world. Then you punch a tree to get wood. You then use the wood logs to get planks, you then make a crafting table. You use the planks to make sticks and a pickaxe for stone, you then get a stone pickaxe. The stone pickaxe is used to get iron for iron tools and armour. After that you can get diamonds for diamond tools. And then you can use those diamonds to get the new, strongest item in the game: Netherite. But during those adventures might be stopped by the mobs... creepers, zombies, skeletons, spiders. Those aren't the only mobs in the game, there are hundreds but I don't have enough time to list them all. There are countless possibilities of what you can build. You only need your imagination though. There are 5 modes: Survival, creative, adventure, spectator and hardcore.

Survival: Gather all the materials yourself

Creative: Limitless amounts of blocks

Adventure: Can only use the correct tool on the blocks

Spectator: Can go through even the toughest of blocks but can't place or mine

Hardcore: Survival but with 1 life

Anyways I can go on talking about Minecraft for hours but I don't want to bore you. Anyways I rate this game a 1200/10 Have
